

25W Megaphone PA System Loud Speaker Voice Recorder

RRP: \$164.95

This versatile and durable device has multiple applications. The powerful megaphone can be heard at the far ends of a large sports field. Its size and weight make it easy to handle and carry. The conveniently located built-in trigger at the rear of the device activates the microphone. Using this megaphone, your message can be heard up to a mile away.

The pistol grip handle of the microphone has an ergonomic design for safety and comfort. A highly sensitive volume control gives you complete control in adjusting your volume level to suit your specific needs.

This light-weight and cord-free device provides flexibility and mobility. The high quality of the unit provides sound clarity. When you need to get everyone's attention, you can engage the megaphone's built-in siren. The device's shoulder strap enhances the safety and mobility of the unit. A ten-second integrated audio memory for voice playback is included in the megaphone. 8 size C battery is all that is required to power the unit.
