

## Power Tower Chin Up Dip Pull Push Up Machine

RRP: \$989.95

The Power Tower gives you an important versatility in your workout regimen. It is designed to give users the ability to do chin-ups, dips, push-ups, sit ups and leg raises because of its multiple grip positions. The Power Tower is strong - made with heavy duty steel construction. It has quick and easy adjustments making working out less of a hassle when transferring from one exercise to the other. The Power Tower is designed to allow correct body alignment throughout your entire workout.

While the Power Tower is durable and can stand up to the most rugged of workouts, it features a padded armrest to provide comfort and security as well as a back pad that provides overall comfort. The Power Tower's side base and solid frame are designed to provide ultimate stability during your fitness training.
