

Weight Lifting Belt Pro Training Small

RRP: \$104.95

Have a better and safer workout! When lifting weights, always support your back with our professional lifting belt!

Safety first during your weight lifting workout! Our professional weightlifting belt is strong and reliable and made from 100 percent leather. It is fully padded for comfort and to add an additional layer of safety. The dual tongue buckle is strong and assures that your belt will remain secure throughout your workout. The belt is 10cm wide.

It is important to always use weightlifting belts during your lifting reps. The belt will help keep your back properly aligned and will reduce the stress on recently sustained injuries you may have received when lifting a heavy object. Athletes always use weight lifting belts to increase their stamina during weightlifting routines.
