

1.4m x 2m Car Side Awning Roof

RRP: \$339.95

This Car Side Awning is constructed to withstand the harsh elements of sun and water. Composed of 420D Oxford Canvas and metal joints, it is durable, lightweight, and simple to set up. The awning height is flexible and adjusted easily with the aid of aluminium anodised, scratch-resistant telescopic legs. Two large brackets are included so you can fit the Car Side Awning onto most roof racks.

You'll never need to suffer the sun's rays beating down on you again. And on rainy days, you'll stay dry under the 2000mm water pressure-proof material. When not in use, the Car Side Awning is stored in a nylon reinforced 1000D PVC brown and grey bag.
