

Safety Scaffolding Ladder - 450KG

RRP: \$1,044.95

A must have for any DIY person, this scaffolding unit provides reliable and safe access to your project while keeping everything within budget. Trim hedges, cut trees or decorate interior and exterior settings with this versatile model! The scaffolding provides excellent stability with its pin loaded locking system while the diagonal braces provide lateral support so you are sure that you have got the right footing, whatever the job!

This self-standing tower is built with heavy duty steel construction. It is also extremely versatile, and comes with lockable, directional wheels, making this model a mobile, sturdy, and reliable workmate perfect for the modern DIY handyman or woman!
