

Palermo Queen 20cm Memory Foam and Innerspring Hybrid Mattress

RRP: \$844.95

They always say that you should not expect to get the best of both worlds, but Palermo proves the doubters wrong. Our mattress with the 20-centimetre profile and medium firm feel means you, your children, or even your guests can enjoy the relief of memory foam with the support that every back needs.

The Comfort of Memory Foam with the Support of Springs

Welcome to the revolutionary comfort of the Palermo hybrid mattress. We quilted memory foam atop a layer of comfort foam, creating a sleep surface that conforms to your unique body shape and relieves pressure points. Then, we place this onto a set of traditional steel spring coils that provides the firmness that many need.

Spring coils do not just provide better support. They also make the mattress more durable while improving breathability. Many people also enjoy the “bounce” of a traditional spring coil bed.

You cannot go wrong using a mattress that prioritises great comfort and necessary support while remaining durable for years.

Specifications:

- Comfortable mattress combines memory foam with the traditional support of an innerspring mattress for a medium-firm feel
- A comfy layer of memory foam is quilted in the soft, knit fabric mattress cover
