

3 Tier Dumbbell Rack for Dumbbell Weights Storage

RRP: \$754.95

Store all your dumbbell weights on this convenient three-tier rack from Randy & Travis Machinery. Perfect for flats, small homes, and gyms in which space is at a premium. With its compact one-metre width and ½-metre depth, you'll only take up ½ metre of closet or floor space, giving you more room for training and storage.

With its 50 mm upturn, this rack stores 10 kg and heavier dumbbell weights. For lighter dumbbell weights, choose a rack with smaller support angles. The rack can store up to 500 kg of weights, evenly distributed. For better traction and to protect your floors, the rack comes with rubber feet.

Specifications:

- Dimensions: 1.2m width x 51cm depth x 88cm height
- Material: Thick, sturdy steel with rubber feet
- Colour: Silver powder-coated frame and black rails
