

2m Gym Rubber Floor Mat Reduce Treadmill Vibration

RRP: \$114.95

Protect your floors while you get in shape with Randy & Travis Machinery's home gym rubber floor mats. Set your treadmill, rower, or other equipment on these thick rubber mats to shield your expensive timber flooring, laminate, or carpet from cracks, scratches, and pressure marks.

Not only will they protect your flooring, but they will also reduce vibrations and noise with their 4-millimetre thick surface. Never again will you have to deal with your household complaining about noise from your early morning workout! Two metres long, this mat will accommodate most home exercise equipment, including free weights.

Crafted from 100% recycled rubber, this mat is durable. Order one for each of your workout stations today.

Features and specifications:

- **Material:** 100% high-density recycled rubber
