

Retractable Fixed Pivot Arm Window Awning Patio Garden Blinds 2.4m x 2.1m Grey

Out of Stock: \$509.95

Nothing keeps the heat of summer at bay like an awning. With Bariloche's 2.4 m x 2.1 m (W x H) pivot arm retractable awning, you can have shade when you need it, and retract it when you want to enjoy full sun. Our awning works well to protect your home, garden, patio, or terrace from heat and rain alike alike.

With its easy-to-use fixed pivot arm, all you need to do is to use the hand crank to retract or extend your awning. With its high-quality breathable shade in 100% polyester valance, you'll enjoy plenty of airflow to maximise ventilation. Its tough steel frame can hold up under almost any weather condition. A rubber bracket ring keeps the valance from fretting.

With the easy-mount wall brackets, mounting is easy, yet we recommend you hire a professional to install it to ensure safety.

Not only will it protect your home, your family, and your guests from the harsh glare of the sun, but it will be a lovely addition to your home or business. Its soft grey colour contrasts with the white trim to create a neat, contemporary look, while its scalloped edge creates depth and visual interest.

Add curb appeal while you protect your home or business from wind and sun with this fine Barliouche awning!
