

Pair of 1m Long 60T Load Rubber Speed Bump Hump Modular Speed Humps Road Hump

RRP: \$229.95

If speeding around your parking lot is a problem, these 60-tonne rubber modular speed bumps from Randy & Travis Machinery are the answer. A full metre long, these road humps will grab the attention of drivers with their eye-catching yellow-and black colour. Capable of handling 60-tonne loads, these road bumps will stand up under the weight of even large cargo trucks. Made with durable, yet forgiving natural rubber, these speed bumps will slow down traffic without damaging vehicles. Their rugged construction assures you of years of service.

At only 13 kg with modular construction, these road bumps are easy to move from one place to another, allowing you to keep all your traffic to a manageable pace. Suitable for parking lots, driveways, and access roads. Order yours today and keep your grounds safe.
