

Wheel Clamp

RRP: \$89.95

People crowding you out of your own parking space? Don't put up with it a minute longer. With this triangular fold-down parking spot barrier from Randy & Travis Machinery, you can keep unwanted cars out of your parking spot for good.

Crafted from high-quality iron with powder coating to protect it from harsh weather conditions, this fold-down bollard creates a sturdy barrier that deters drivers from stealing your spot. Installation is easy. Simply mark the two bolt holes on the parking surface using the device as a template. Drill holes at the two spots you've marked, place the barrier with the holes over those two spots, and then tighten the barrier to the ground with the bolts.

Fold it down to park and then fold it back up as you leave. This triangular barrier will keep your spot safe until you return. Water-proof and crash-resistant, this barrier will last for years, keeping your parking spot closed to anyone but you. It's even lockable, so no one but you can fold it down. Its vivid colours, reflective strips and triangular shape make it easy for other drivers to see and avoid your parking spot. If you're tired of walking long distances to work because someone's stolen your parking spot, this triangular bollard is your solution. Buy yours today!
