

1200Pcs Bootlace Ferrule Crimper kit 0.25-10mm² Cord End Ratchet Crimping Tool

RRP: \$89.95

Working with wire takes a lot of precision. With this bootlace ferrule crimping tool from Randy & Travis Machinery, you'll have the edge in any electronic project.

Its ergonomic design and lightweight construction make the tool perfect for easily crimping wires in bootlace ferrules. This four-sided crimper works with several ferrule sizes and comes with 1,200 ferrules in varied sizes, all with plastic ends for easier access.

Ferrule sizes range from 0.5 to 10.0 square millimetres, but the crimping tool can also handle ferrules in an even smaller size, 0.25 square millimetres. It comes in a no-welding design for extra ease of use. Make working on your next electronic project go easier. Buy this crimping tool and ferrule set today!
