

Foldable Hand Flatbed Trolley Cart 6 x 360 Degree Rotating Wheels with Maximum Load 200Kg

RRP: \$174.95

When you need to move heavy equipment or furnishings, you have three choices: strain your back and arms, hire someone to help you, or have one of these handy cargo transport carts from Randy & Travis to help you with the task.

With four 360-degree rotating wheels and a 200-kilogramme maximum load capacity, you'll be able to manoeuvre your cargo around tight corners to get in and out of rooms. With its labour-saving design, you can tilt the handle to do more with less effort. Two directional wheels provide stability and support.

An extendable loading base allows you to haul larger items, allowing you to use it for even commercial use, such as home delivery, office removals, and shipping heavy warehouse items. For residential use, this feature allows you to move larger furnishings, such as heavy appliances, without tipping.

With its sturdy steel tie rods, durable rubber wheels, and heavy-duty PP plastic base, this trolley cart can stand up to even heavy use. Even so, it's easy to carry, weighing only 3.2 kilogrammes. Fold it up when you finish your task and store it in your garage, closet, or even under your bed until the next time you need it.

To make things even easier, you can adjust the height of the trolley to three positions. If you're moving an object from a high platform, you can use the highest setting. When you need to move something that's on the floor, just adjust the trolley settings to the lowest one.

Don't risk a sprain or a strain from moving too-heavy objects around the house or around the office. Order one of these handy trolleys today!
