

Inversion Table Gravity Stretcher Inverter Foldable Home Fitness Gym

RRP: \$584.95

If you have chronic back pain—or experience back pain after a hard day's work, this inversion table by Randy & Travis Machinery might be the ideal solution. When you hang upside down, you realign your spine, relax your muscles, and lessen nerve pressure. This inversion table provides you with all the benefits of hanging upside down in a secure, comfortable setting.

An extra-wide backrest features high-density foam padding, assuring comfort and support. Adjust the angle up to 180 degrees with three pre-set locking positions. A locking ankle clamp and safety belt assures comfort and safety, while padded U-frame handles allow you to get a firm grip and stand upright easily whenever you want. Removable cushioned lumbar support adds extra comfort, while non-slip rubber feet help you feel secure.

Constructed with rust-proof powder-coated steel, this table can support people weighing up to 150 kilograms. It's height-adjustable, so it can accommodate a wide range of users. After you're done, just fold it up and store it until the next time you need it. Don't suffer a day longer with back pain. Order your inversion table today.
