

Kids Basketball Hoop Arcade Game

RRP: \$184.95

Have younger kids that want to learn how to shoot baskets or just practice their shot? This kids' basketball hoop arcade game by Randy & Travis Machinery is just the ticket. Just like their favourite game at the local arcade, this pint-sized version can help kids from 5 to 10 hone their shooting skills.

If you plan to get this basketball game for your child as a holiday gift, you won't be up all night the day before the holiday. It assembles in 10 minutes, and you need no tools or screws. Just attach the blue tubes with the tight-fitting yellow connectors, and your arcade will be up and running. An assembly manual provides an easy-to-follow guide as you put it together. Light in weight, this game is easy to move around your home or disassemble and carry along with you when you go on holiday. Whether for a gift, for practice, or just for fun, this is the perfect way to entertain your kids as they build strength, skills, and endurance. Get one for your kiddos today!
