

A3 Drawing Board Table with Parallel Motion and Adjustable Angle Drafting

RRP: \$89.95

If you're an artist, designer, architect, or builder, you probably take your work home with you occasionally. This A3 drawing board table by Randy & Travis Machinery is the perfect solution. Ergonomically designed, this lightweight table is easy to take from room to room so that you can join your family as they relax even as you work.

Crafted from high-quality plastic, this drawing board table set is as durable as it is light in weight. Two parallel rulers and corner clips ensure stability, making your drawings more accurate. Quick-release paper clamps on both sides secure your drawing paper.

Whether you're a professional who likes to take work home, or you're an amateur designer who likes to work on projects in your spare time, this compact board does the job of the full-size professional board at your office at a much lower price. It's perfect for design startups, getting work done with great accuracy yet requires less floor space. Get your table today.
