

4 x 1 tonne FIBC Polypropylene UV Rated Builder / Bulk / Landscape Bags

RRP: \$184.95

If you're a landscape contractor, a builder or DIYer, have a large warehouse, or just have a long outdoor to-do list, these one-tonne capacity landscape FIBC bulk bags from Randy & Travis Machinery are exactly what you need. Tackle all the waste you have after big jobs or transport large quantities of building materials to the site without losing a thing.

Made from tough polypropylene, these bags can hold up to one tonne (1000 kg) of material. Four cross-corner loops provide stability and allow easy handling, while its circular woven fabric provides a tough surface that resists rips, tears, and holes.

Suitable for stand-alone use or with a frame, these bags will help you get the job done with less mess while spending less time in clean-up. Before you start your next job, be prepared with FIBC bags that stand up under the demands of even the toughest work. Order yours today.
