

Heavy Duty Shelf Bracket, 20cm x 16cm 10-Pack

Out of Stock: \$164.95

When you need heavy-duty shelf brackets to handle tough loads in your home, laundry, garage, shop, or business, these sturdy steel shelf brackets by Randy & Travis Machinery are the perfect solution. Measuring 10-1/2 by 7-1/2 inches, these brackets install easily with nails, screws, bolts, or drywall wall anchors and 12-inch dimensional lumber (actual depth 11-1/4 inches). They come with three predrilled 1/4-inch holes on them for whatever fasteners you choose.

No worries about durability. Made from high-quality steel with a powder coat finish, they can hold up under the toughest use. Though they're as tough as shelving brackets come, they're good-looking, too. Their rustic, industrial-chic style is as on-trend as it gets. Done in neutral black, they blend into almost any colour palette at home or in the office. For toughness and versatility, these shelf brackets will serve you well. Order yours today.
