

20m Self Adhesive Synthetic Turf Artificial Grass Lawn Carpet Joining Tape Glue Peel

Out of Stock: \$84.95

If you're using artificial turf for your backyard or business, you need strong, yet easy-to-tear tape to join one section to another to create a seamless appearance. This self-adhesive lawn tape from Randy & Travis Machinery ticks off all the boxes. Its 20-metre length and 15-centimetre width give you plenty of length and width to ensure solid adhesion. Tough and durable, this tape is built to last. With proper care, it should provide you with years of service.

Not only is it strong, but it's easy to use. Simply peel off the backing and connect the sections of turf you want to join. Made from a non-woven fabric backed with a strong adhesive, this tape is incredibly thin yet adheres perfectly every time. This tape works in both indoor and outdoor settings, with both soil and sand bases. It's an ideal solution for your patio, deck, or rooftop sitting area. Order several rolls today!
