

5x Clear Transparent Rain Walking Umbrella Parasol PVC Dome Wedding Party Favour

RRP: \$64.95

There's nothing like a clear umbrella on a rainy day. Not only does it protect you from the rain, but you can see all that's going on around you without having to peep out from underneath it. With this set of five transparent umbrellas by Randy & Travis Machinery, you can keep one for your home, one for your car, and give three away as welcome gifts, especially during the rainy season! Stores and restaurants, too, always need to keep a few extra umbrellas on hand for their customers who need to get to their cars during a sudden rainstorm. They'll appreciate your thoughtfulness and can return it the next time they come.

Not only are they practical, but they make great decorations for weddings, parties, and other themed gatherings. Whether it's a "Singin' in the Rain"-themed party, a child's rainbow-themed birthday party or a bridal or baby shower, these umbrellas can double as both decorations and party favours. Whether it's for a gift, for yourself, your business, or just for party décor, these umbrellas are a great thing to have around. Order yours today!
