

38cm XL Pizza & Baking Stone for BBQ/Oven/Grill

RRP: \$94.95

This pizza stone may be the best pizza stone you will ever use as it extremely heavy duty and weighs in at about 2.7kg. With an extremely large diameter of 38cm and 1.1cm thickness, it's perfect for BBQ grills and oven use too, but make sure your oven can handle a stone this large!

Enjoy epic fun pizza nights with your friends anytime. Kneading, rolling, throwing ingredients at your kids, it's all fun. But to get those flavors to really pop, take note that you also need the right heat and the right base.

Features:

- **EXTRA LARGE AND THICK FOR FAMILY SIZED PIZZA** - Our pizza stone is a whopping 38cm and 1.1cm thick so you can serve large family sized pizzas.
- **KILN-FIRED AND LEAD-FREE FOR THE BEST PIZZA!** Our pizza stone is kiln-fired, lead-free and designed to withstand extreme temperatures so you can cook like a professional chef. The specially engineered heat core evenly distributes heat so every pizza slice is delicious.
- **MAKE PIZZA OR BAKE BREAD - MORE VALUE FOR YOUR MONEY!** Our round pizza stones are great for commercial and home cooking. Can also be used as a cookie sheet, bread pan or serving tray.
- **DURABLE - BAKE AND SERVE!** Our pizza stones are extra thick and durable. They can withstand high temp and are extremely sturdy.
