

6x Safety Full Face Shield Clear Guard Protector Mask Anti-Fog + Elastic Head Band

RRP: \$79.95

Why settle for a mere mask when you can have a face shield to protect you from dangerous viruses and bacteria? With this clear full-face shield by Randy & Travis Machinery, you never have to worry when your office mate sneezes or coughs. This anti-fog face guard allows you to see clearly yet protects you from droplet-borne germs. No worries about fit. A wide elastic band conforms to your head, while a sponge cushion on your forehead provides the ultimate in comfort.

Not only does it work well to keep disease at bay. It's also the perfect way to avoid dust, paints, or chemicals splashing up in your eyes as you spruce up your home or garden. Instead of wearing only goggles to protect your eyes, you can have full-face protection with this face shield. Its high-density polyethylene material stands up under even extensive use every day of the week. Its anti-static surface on both sides repels dust, making it a great choice for people with allergies. Protect yourself and those you love. Order your face shield today!
