

68L Motion Sensor Bin Automatic Stainless Steel Kitchen Rubbish Trash - Black

RRP: \$419.95

Tired of the dance between the rubbish bin and the sink every time you need to throw away kitchen rubbish? With this touchless rubbish bin by Randy & Travis Machinery, you can dispose of rubbish without fear of contaminating your hands with germs. Its sleek design and striking black colour will blend in beautifully with your kitchen décor. With its 60-litre capacity, it can hold plenty of kitchen waste before you need to take it outside.

Thanks to its infrared technology, the sensor in this rubbish bin will “see” when your hand is 20 centimetres away, opening the lid for touch-free use. No worries about needing to close it. It closes automatically after you’re done tossing in the trash. Crafted from corrosion-resistant stainless steel, it’s tough, durable, and easy to clean and maintain. Don’t just limit its use to the kitchen, though. Once you’ve experienced the convenience of touchless, you’ll want one for your laundry, office, or utility room, too. Don’t miss out on this germ-resistant way to keep your home or office clean. Get your touchless rubbish bin today.
