

Kids Gymnastics Bars Training Horizontal Bar Monkey Kip Bar Pink

RRP: \$279.95

If you have a young gymnast in your home, they'll simply love this adjustable-height horizontal bar by Randy & Travis Machinery. They can practice to their hearts' content – and when they're done for the day, simply fold it up and store it away from sight. Its adjustable height makes it perfect for children from three to seven. You'll never have to worry about it slipping. Its triangular construction gives it superb stability, minimising swaying and swinging. Four non-slip industrial-strength rubber floor rings give added support, giving you perfect peace of mind. Two circular bases absorb shock, while soft sponge padding provides your child with a firmer grip for an even safer workout.

As your kids grow, this apparatus grows with them. It accommodates children weighing up to 60kg, so there's plenty of room for them to grow. Just raise the height as your children grow larger and their skill level increases. Adjustment is easy, as is folding for storage. It's easy to assemble and will last for years to come, thanks to its durable powder-coated steel construction. It makes the perfect birthday or holiday gift – or just a special surprise for the budding gymnast who can't get enough of his or her favourite sport. And, it's the ideal way for your kids to burn off their energy when they can't go outdoors. Don't wait to make your child's day. Get your child this professionally designed horizontal bar today!
