You need a place to put the final touches to your beauty routine that offers perfect comfort but blends in beautifully with your room's décor. With this vanity set's neutral white colour, offset by solid natural wood handles, you have all that and more. Whether your bedroom features trendy farmhouse chic, contemporary, or eclectic décor, this vanity set by Palermo will blend in perfectly. Its generous-sized makeup mirror reflects light, making your space look larger than it really is.

That's not all. The mirror slides out of the way to reveal three hidden shelves, giving you even more storage space than most vanities on the market today. Three open shelves display photos, plants, collectibles, or favourite fragrances, while five drawers, one of them lockable, provide extra storage. Use the lockable drawer to stash your jewellery and other valuables. The well-padded stool provides plenty of legroom, even for larger persons.
