

Power Tower Chin Up Bar Push Pull Up Knee Raise Weight Bench Gym Station

RRP: \$659.95

It's nearly time to hit the beaches! But if you're not in the shape you'd like to be, here's your solution. With this combination workout station from Randy & Travis Machinery, you have everything you need to sculpt the perfect beach body with a single piece of equipment. Ditch the hefty gym fees and get your workouts in at home for a fraction of the price. Whether your workouts include pull-ups, push-ups, chin-ups, bench presses, weightlifting, dips, knee raises, or leg raises, this sturdy training station has you covered. Its professional-grade quality makes it perfect for serious athletes who want to cross-train for their sport, yet it's easy enough for weekend warriors to start getting their bodies in shape for summer.

Its small footprint takes up little space, yet it's as sturdy as the equipment in your favourite gym. Crafted from powder-coated, heavy-duty tubular steel, it's built to last, making it an incredible value compared to your monthly gym fees. With its non-slip rubber feet, you can be sure it won't move, keeping even your most strenuous workouts safe. Built for comfort, it features soft, sweatproof cushions, arm supports, and padded handles to make your workouts as fun as they are effective. Don't miss out on the perfect beach body this year. Order your workout gym station today!
