

24" 8 Panel Pet Dog Playpen Puppy Exercise Cage Enclosure Fence Play Pen

RRP: \$214.95

When you have a pet, you want to have a safe spot for it to explore its environment without your constant attention. This indoor-outdoor pet playpen by Randy & Travis Machinery will keep your pet out of harm's way outside while playing and protect your belongings from an overactive puppy or kitten when inside. With eight panels, the enclosable area is just large enough to allow your pet to stretch his or her legs while not taking up too much space. If you have a large yard or indoor space, you can buy two pet playpens and expand your pet's play area. Additionally, you can configure the pen into a variety of shapes to accommodate your home or backyard.

This pet playpen is easy to install and easy to fold away for storage. With a bolt latch on the access door, two locks, and round edges, your furry friend will stay safe and secure. At 24 inches in height, it works with small dogs and puppies, as well as small kittens, guinea pigs, ducks, rabbits, and other small pets that aren't good climbers. Crafted from powder-coated steel, it's built to last for years, even with everyday use. Give your pet a zone of its own with a special place to play. Get your pet playpen today!
