

42L Rubbish Bin Waste Trash Can Pedal Recycling Kitchen Wheel 2 Compartment

RRP: \$189.95

More than just a rubbish bin — or even a recycling bin — this 42-litre combination waste disposal system from Randy & Travis Machinery features two main compartments and a bonus drawer in the middle. That's not all. The top compartment has two sections, allowing you to divide compostable rubbish from paper waste. Side hooks allow you to easily hang bags for filling. Use the middle storage drawer to stash liners, ties, or other supplies, while the bottom compartment opens up at a 45-degree angle to store recyclables. When you're ready to take it out for recycling, simply lift it out and carry it by its handle. With wheels that turn a full 360 degrees in all directions, it's easy to move.

Crafted from light beige plastic, it's as easy to carry as it is lovely to look at. You'll never have to stow away your rubbish bin under the sink or elsewhere any more. Its sleek lines and neutral colour fit in well with any kitchen décor. Use it in bathrooms, bedrooms, or garages, too. Its versatility makes it an ideal fit for practically any space where you need to store your rubbish. A lid lock keeps odours from getting out and pests from getting in. It's truly a one-stop solution for all your disposables.
