

150KG Portable Cart Folding Dolly Push Truck Hand Collapsible Luggage Trolley

RRP: \$294.95

When you need something to move heavy items but you don't have a lot of storage space, this folding hand trolley by Randy & Travis Machinery gives you the best of both worlds. With its weight-carrying capacity of 330 pounds, it can help you move most furniture and large appliances with ease. As it is crafted from lightweight, strong aluminium, its own weight won't add much to the load – making it easy to move items from one place to another. Just like the dollies they use in warehouses in all the big box stores, this hand truck can do it all. But with its folding capabilities, you can easily store it in your garage, storage room or even the boot of your car without taking up much space.

Don't limit this versatile tool to moving large items. It's a time- and labour-saver when you want to take luggage, sports equipment, coolers, or picnic baskets out to your car for a holiday or a weekend trip to the beach. It's rust-proof and wear-resistant, and it only takes seconds to unfold and use – no assembly required. Resting on sturdy PVC wheels with built-in bearings, it's easy to use, even for smaller persons. After you've finished using it, it folds quickly for storage. Perfect for use at trade shows, athletic competitions, or deliveries, it can do double duty on the job as well. With its anti-skid construction, it will never let you down.
