For a student or person working remotely from home, a good desk is a must. But if you're short on space, you need a desk that doesn't take up a lot of floor space but has everything you need for a long study or work session. With this foldable desk by Randy & Travis Machinery, you have the option of keeping it as a permanent fixture in your room or easily folding it away for storage when you're done with your work. And with its folding legs, you can easily take it along wherever you go.

Thanks to its streamlined black metal frame and contrasting MDF wood-tone top, it's a beautiful piece of furniture you'll be proud to display in any room. It's stable, strong, and designed to last for years to come. It's easy to clean – just wipe it with a damp cloth or disposable wipe, and it's sparkling-clean again. And, when you're done with work, it doubles as an attractive side, game, or snack table.
