

Large Round Hamburger Patty Maker Grill Press Burger Metal Mold Cooking Tools

RRP: \$24.95

Do you envy your neighbour – you know, the one with the huge, perfectly round professional-looking burgers? You know he's not a chef – but what's his secret? Maybe he keeps one of these burger makers in his kitchen before he brings them out to the barbecue. With this large burger mould by Randy & Travis Machinery, your burgers will be perfectly round, every time. No frayed edges to fall into the fire, no uneven thickness. Just beautiful burgers that will cook evenly, making your backyard get-togethers the talk of the neighbourhood.

Crafted from die-cast food-grade aluminium, this burger maker is durable, lightweight, and easy to take along on holiday or to picnics on the beach. The handle's detachable so it takes up little space in storage. It works with turkey, pork, chicken, or even veggie burgers, along with beef. And, it makes incredible crab cakes, just like the ones in the pricey seafood restaurants at your favourite coastal getaway. Simply fill the mould with your favourite burger mixture, press the handle down, and voila! You have a perfectly thick, perfectly round burger to serve your family and guests. This burger maker makes a perfect wedding or housewarming gift. And, it's the ideal birthday or holiday gift for the barbecue lovers and foodies in your life. Get your burger maker today!
