After 15 minutes of pure pleasure, the massager turns off, preventing it from overheating. Its deep massaging action will leave you with better circulation and relaxed muscles, ready for another day of hard work.

This massager works on both your neck and back, with eight kneading nodes working deep into your muscles to relieve soreness and stiffness. It's portable, so you can use it while you're working in your office, driving in your car, or watching a game of footy in your comfy chair at home. With three speeds and two directions (clockwise and counterclockwise) to choose from, you can customise your massage to your exact needs. Long straps allow you to adjust it to your unique anatomy. Crafted from durable PU leather and breathable mesh, it's easy to clean between uses. Just wipe it down with a damp cloth or disinfectant wipe, and it's good to go for the next time.
