

4m Traditional Cotton Rope Hammock with Hanging Hardware

RRP: \$219.95

There's nothing like a traditional rope hammock to turn your backyard into a relaxing retreat, especially in the summertime. With this nearly 4-metre-long cotton rope hammock by Randy & Travis Machinery, you'll have a great spot for reading, sipping a cool drink, or just daydreaming as you soak up the sunshine. Crafted from soft cotton, this hammock will wrap you in cool comfort on lazy afternoons and after-work snoozes.

Its 208-centimetre bed can accommodate practically all your taller family members and friends. And, its 182-kilogramme weight capacity can hold two people comfortably, thanks to its maximum-density rope. That density also provides more support for your back, keeping your spine in its natural position and you more comfortable. Each rope pulls against the others to create a lattice design, avoiding uncomfortable knots in the actual bed section. Double-looped strands connect the bed section to the hand-crafted ring knots making the bed extra strong and durable. With more than 304.8 metres of dense cotton fibres supporting you, all you need to do is relax.

Don't wait until summer arrives to order your hammock. Get yours today!

Features and specifications:

- Material: Natural cotton rope and hardwood spreader bar
- Colour: Off-white and natural wood
- Rope density: 8mm
- Weight capacity: 182kg
- Seating capacity: 2 persons
- Bed length: 2.08 m
