

7 Layers Skateboard Deck Natural Wood Maple Double Concave Blank Skate Board DIY

RRP: \$69.95

If you're a skateboarding enthusiast, you might want to customise your own ride. With this DIY skateboard deck by Randy & Travis Machinery, you can add all the special touches you want to make it your very own. Crafted from seven layers of natural maple timber, this double-concave base is all ready for you to add your favourite wheels, paint, decals, or other accessories. And, its 19-centimetre-wide deck and seven layers of support give your feet a sturdy base to launch your favourite skateboard tricks.

If you have a child or teen who loves skateboarding, this skateboard platform makes a wonderful parent-child project. Let them pick out the colours, accessories, and design and then work on it together. It's a wonderful gift and a terrific way to please the skateboarder in your life. Get ready for the holidays with a one-of-a-kind gift that will provide great memories for years to come. Order yours today.
