

Balance Board Beam Seesaw Wooden Child Kids Adult Yoga

RRP: \$94.95

If your child loves to explore how the forces of nature work while at play, this beechwood balance board from Randy & Travis Machinery is the perfect gift. A curved piece of solid beechwood, this balance board is perfect for relaxing, building their sense of balance for skiing, skating, surfing, gymnastics, or other sports that demand balance. It's sturdy and durable – and should last for years to come.

Kids also love to use their imagination, turning it upside down to build a bridge or tunnel, imagining that it's a boat or doll bed, or using it as a seesaw with another child. With its 100-kilogramme weight capacity, it can easily accommodate two children. It's also the ideal spot to daydream or read. Its gentle rocking motion adds a kinaesthetic dimension to the experience, engaging more senses in the learning process. It's a fantastic holiday or birthday gift that will delight any child, especially active ones. Order one for the little one in your life today!
