

Tiles 3D Peel and Stick Wall Tile Subway White (30 x 30cm x 10 sheets)

RRP: \$114.95

Want the look of expensive subway tile but don't want the hassle of installing it? With these ceramic-look moulded plastic tiles from Randy & Travis Machinery, you'll have the best of both worlds. These peel-and-stick tiles are easy to install, but their three-dimensional look replicates the look and feel of ceramic tile. They're perfect for an accent wall, backsplashes for kitchens or bathroom sinks, on your kitchen island – or even for your caravan.

They install over smooth glass and ceramic tiles, acrylic or linoleum wall panelling, mirrors, or wallpaper. However, they don't work well with unpainted plywood, unfinished walls, stucco, or stone. They're easy to clean with only a swipe with a damp sponge, so they're the perfect solution for busy families. When you're ready to change décor, just apply heat (like a hairdryer) and pry them off. Don't miss this chance to have the look of subway tile without having to hire a professional installer. Get your easy-install tile today!
