

Landscape No Dig Lawn Garden Edging Kit 10m Flexible Durable Border Paver

RRP: \$119.95

This border paver is one of the best on the market, perfect for even the most complex landscaping work. It ensures minimum work for those using it to create those perfect edges. Whether using this landscape edging product between a lawn and flower bed, next to a patio or to finish off a path, this brilliant kit from Randy & Travis Machinery has you covered.

Features:

In a practical black finish, the kit is weather-resistant come rain or shine, so you can be confident installing it outside. Made of a durable, strong polyethylene material, it will keep performing well for decades to come.

The paver is easy to use – just ensure the edge matches up with the perfect line envisioned for your garden, after removing any excess dirt from the area. Then just hammer as many of the anchoring stakes as required into the ground along the desired line, and the professional landscaping finish will be achieved! The material is flexible, so can easily be used for a clean, modern garden design, or even alongside weed fabric for protection from unwanted invaders.

Specifications:

This landscape edging kit is made from 100% recycled polyethylene, and weighs in at just 5 lbs so is easy to transport for any gardening or landscaping professionals that need to take it from job to job. The paver can stretch to 33ft, and has a height of 5cm. The kit includes 30 anchoring spikes.
