

Castor Wheels 4 x 6" 150mm Swivel Silent Caster 2 Brakes 800KG

RRP: \$129.95

If you have an immovable object that you want to move, our heavy-duty castor wheels are the perfect solution. These wheels can effortlessly transport up to 800kg from point A to point B and are even strong enough to move a horse.

Once you bolt these wheels in place, you can forget about them. Made with galvanized steel and high precision ball bearings, they ensure a smooth and reliable rolling experience. Just remember to engage the lock on the swivel castors to prevent them from rolling away.

No one wants to create a ruckus while pushing a cart. Our rubber wheels not only reduce noise but also leave no annoying marks on the ground, ensuring a quiet and seamless rolling experience. Transform your bench by flipping it upside down, drilling holes into it, and attaching these trolley wheels. Flip it back over, and you can effortlessly roll it over any type of terrain.

Experience the ease of movement with our 360-degree swivel wheels, gliding so smoothly that you'll wish you could have them on your shoes. These wheels perform equally well on both smooth and rough terrains, providing unmatched versatility. Upgrade your mobility with our heavy-duty castor wheels and enjoy the convenience of effortless movement for your objects. Say goodbye to immobility and embrace the freedom of smooth rolling!
