

4L Water Trough Bowl with Automatic Float Valve

RRP: \$94.95

Ensure your animals never go without water again with the convenience of this automatic water bowl. Equipped with a fully adjustable float and a drainage bung, it guarantees a continuous water supply.

To prevent animals from tampering with the float, the bowl comes with a removable float cover that can be easily detached by undoing two screws.

With a 1/2" BSP input fitting that can be installed on either side, you have the flexibility to connect the bowl directly to mains water, a garden hose, or a tank. Included in the package is a brass garden hose fitting, allowing you to effortlessly hook it up to your hose for immediate use.

Crafted from UV-stabilized, high-quality nylon (not poly), these bowls are built to last. Count on years of trouble-free service, leaving you completely satisfied.

The dimensions of the bowl are 27 x 28 x 12.5cm, providing ample space for your animals to drink from. With an approximate capacity of 4 liters, you can rest assured that there will be an adequate water supply for your furry friends.
