

Pilates Trapeze Table Home Gym Train Equipment Machine

RRP: \$3,359.95

Randy & Travis Machinery presents the Pilates Trapeze Table, a meticulously crafted trapeze system that boasts both elegance and functionality.

Engineered for unwavering stability and effortless adjustments, this table is a perfect fit for both home and professional studio settings. The versatile design of the Trapeze Table offers an array of spring lengths and tensions, coupled with multiple attachment sites, allowing for various resistance levels to support and challenge the body. Experience the premium performance that this table delivers, enabling you or your clients to access an incredible range of exercises, complete with full acrobatic hanging capabilities.

Our Pilates Trapeze Table includes a robust stainless steel trapeze tower, an adjustable push-through bar, a roll-down bar, and trapeze springs - providing maximum versatility for your workout routines. Rest assured, you'll feel secure and steady while engaging in acrobatic workouts. While assembly is required, a comprehensive manual is provided to guide you through the process.

Achieve the fit physique you've always desired. Check out our Pilates Trapeze Table today!
