

## Single-Door Metal Tall Cabinet Shelf Storage for Home Office Gym

RRP: \$589.95

This metal locker has a compact and lockable design, ideal to keep anything out of sight in the home or office.

The single-door cabinet is made of cold-rolled steel, which provides stability, durability, and resistance over time. It has an opening door and 4 shelves for organizing and storing small and large items.

The steel material has a thickness of 0.6mm. The bottom panel is designed with side and central reinforcement, hidden metal hinges and galvanized screws. It has a concealed security lock and adjustable legs for greater stability.

This cabinet is not assembled, but in the form of flat packages, so as to occupy the minimum possible volume and be transported in the easiest and most economical way.

Whether you're looking for a simple and stylish storage solution for your kitchen, bedroom, home office or workspace the Randy & Travis cabinet is designed to fit your needs.
