

Frameless Pool Fencing Clamps - 12 Piece

Out of Stock: \$1,034.95

As part of an elegant and modern fencing solution for the pool or other outdoor area, the Frameless Glass Fencing Spigot is a smart choice. And we bring it to you at our everyday low price.

This durable, weather-resistant spigot is made from a high quality anodised aluminum alloy. It measures 180 x 95 mm (L x W)), with bolt holes measuring 8 x 8 mm. The spigot is designed expressly for the do-it-yourselfer, and no holes are required in the glass. The glass is gripped by the rubber grip sleeve which lines the interior of the spigot. Installation is easy, and an allen key for the bolts are included.

The spigot is appropriate for Safety Glass with thickness of between 8mm and 12mm. Glass panels will be held 50mm off the ground when installed in spigots. By using multiple spigots to support your fence, you'll enjoy a fully frameless fencing design for a modern appeal that will minimally obstruct your views.

Complete your backyard or pool area with the beauty and sophistication of a frameless glass fence. We're here to help with the Frameless Glass Fencing Spigot. Order yours today.
