

550x455mm Handmade 1.5mm Stainless Steel Undermount / Topmount Kitchen Sink with Square Waste

RRP: \$734.95

Renovating your kitchen? We've got what you need with this Stainless Steel Sink. This modern sink with beautiful stainless steel is the easy way to transform your kitchen without spending a fortune. It's also great for laundry rooms.

This single sink is made from 1.5mm-thick Type 304 stainless steel with a satin finish for a brilliant look that will last and last. It measures 550 x 455 x 255mm (L x W x D) with a 90mm drain opening. A Square Strainer waste is included. Installation is Undermount / Topmount-style.

A couple of high-quality features separate this sink from competing products. The Undermount / Topmount is sound padded, preventing the clanging that would otherwise occur from water hitting steel. And an undercoat layer over that sound padding helps to properly maintain the temperature of the water in the sink. This undercoat also prevents water condensation that could lead to damage to your cabinetry.

Brilliant, beautiful, and made to last — you've got it all with this Stainless Steel Sink. And don't forget our everyday low price! Order today.
