

Wood Computer Desk PC Laptop Table Workstation Office Study Home Furniture

RRP: \$99.95

When you work at home or require a spare workstation at your office, you need a compact desk that not only blends with your décor but fits easily into your home or office's floor plan. With this streamlined desk from Randy & Travis Machinery, you can have an efficient workspace that you can wheel anywhere. Not only that, but its L-shaped legs can tuck under a bed or a sofa when you finish for the day.

Its compact size makes it easy to store in a closet when you need more space. With a sleek wooden top and pull board, its natural design will look great with any décor. An adjustable desktop allows people of varying heights to use this computer desk, while a wide work surface provides room for a laptop, a mobile device, and extra materials.
