

16KG Pro-Grade Steel KettleBell

Out of Stock: \$209.95

Save money and time! Create your own fitness center and workout in the convenience of your home!

And when you begin to build your in-home gym, one piece of equipment that you must include is the 16kg magnum fitness pro-grade competition Kettlebell. This important part of your fitness routine has all the effectiveness of a traditional Kettlebell with many added benefits. This 16kg Kettlebell will save you money because there will be no need to purchase additional Kettlebells. This sleek and compact piece of equipment saves space and is perfect for those who cannot store multiple Kettlebells. Its pro-grade shape and competition style design and handle size provides the ultimate in versatility and movement.

The set is constructed of steel, not cast iron like many Kettlebell sets are. The slimmer handles that the individual pieces are equipped with allow for easy gripping and prevent lateral slippage. The slimmer handles on our Kettlebell set are ideal for high rep sets because they minimize fatigue. The set was designed to give the user better ballistic abilities along with easier and more natural mobility during the entire workout.

Price is per one piece of 16kg kettlebell and is only available in yellow.

Note: Item may have paint chipped
