Do you live to DIY? If you spend your days dreaming about new projects – dream no more. You've just found one. These 71cm hairpin table legs by Randy & Travis Machinery are just the thing for that table you've been wanting to build or refinish.

With their on-trend Mid-Century Modern design, they'll fit equally well with a rugged industrial look, streamlined Art Deco style, or contemporary home décor. Crafted from cold-rolled steel, these table legs are strong and durable. Four predrilled holes in their mounting plates provide stability and make it easy for you to install and ensure a stronger weld.

Although their raw steel colour goes with nearly every colour palette, these legs may be re-painted for an exact match with your other furnishings.
