

## Bed Assist Rail Grab Support Bar Handle Safety Bar Disability Elderly Rails

Out of Stock: \$109.95

If you're a caregiver for a senior family member, a loved one with a disability, or someone recovering from surgery – or if you're in that situation – you know that getting out of bed and getting back into bed can be a challenge. With this under-mattress support rail by Randy & Travis Machinery, you or your loved one can navigate this difficult task more easily. Simply grab onto the non-slip padded handle, push down, and swing your legs around off the bed. To get back into bed, grip the handle, sit on the bed, and swing your legs back up into the bed, bracing yourself against the bar for support. Crafted from stainless steel and non-slip foam, it's both sturdy and comfortable.

With its 158-kilogramme weight capacity and adjustable height, this bed rail can accommodate a wide range of users. It's easy to assemble and install – with no tools needed. Simply set it up and slip it under the mattress. Anti-slip foam on its baseboard provides extra stability. If you or your loved one goes on a trip, it folds flat for storage so that you can enjoy the same support on the road. Make life easier for yourself and your family. Order your support bed rail today!
