

Trapezoid-Shaped Table Bench Desk Legs Retro Industrial Design Fully Welded - White

RRP: \$239.95

If you love the clean lines of industrial design, but want a brighter look than the usual black, these gorgeous bench and table legs by Della Francesca are a great choice. Crafted in durable iron with a white powder coating, these rectangular table legs lend a geometric dimension to your furnishings. Neutral in colour, they will blend with the décor in practically any room and with tabletops and benches of any colour. Easily installable non-slip pads prevent the table from sliding and protect your floor from scratches.

A versatile foundation for any table, bench, desk, or nightstand, these legs are easy to instal, thanks to their pre-drilled holes and pre-welded attachment plates. Even beginner DIYers can tackle refurbishing a table or bench, simply by removing the existing legs and attaching these. For a more challenging project, create a completely new table or bench for a one-of-a-kind gift or family heirloom. With these solid legs, you'll have a piece that will last for a lifetime — and maybe beyond. Get yours today!
